Table Bases: Require assembly, and also need to be attached to the table tops.

Wood Finishes/Stains: The finishes shown on wood finish cards have been simulated to show what finishes will look like on certain types of wood. Please be advised that different wood, as well as grain and tone variations in the same wood, absorbs stains differently. Therefore, we cannot guarantee nor assume responsibility for exact duplication of the stain (color) finishes.

Wood: Wood is a product of nature, which varies from tree to tree and piece to piece. Grain and marked color variations between boards on the same species of wood can occur. Therefore, we cannot guarantee nor assume responsibility for exact duplications of wood species.

Wood Tabletop Disclaimer: Wood tabletops are subject to shrinkage, warping, and seasonal cracks due to the natural moisture within. These occurrences are nonstructural and will not affect the durability of the table; therefore, we do not warranty against natural cracking or gapping, as these are not defects in manufacturing or craftsmanship. Depending on time of year and where the table is shipping, we may advise delaying your shipment due to extreme temperature changes during transit.

We recommend using solid wood table tops in cool room settings (68–72 degrees Fahrenheit) with a relative humidity between 40% and 45%. Proper air circulation in the room is necessary. Any sudden changes in temperature or humidity can affect the tabletop, so change your thermostat settings gradually as the seasons change. This also applies to the storage of wood tabletops. If you plan to store your wood tabletops for an extended period of time in a storage facility, make certain that you do so in a climate-controlled unit.

Excessive heat, cold, dryness, or humidity are often the culprits for any wood cracking or splitting. Carefully consider the placement of your tables. Avoid direct sunlight, heat sources, and bright lighting. Also, do not place tables within close proximity to radiators, heating vents, space heaters, ovens, or wood-burning stoves.

Everyday care of wood tabletops requires attention. Do not use vinyl table cloths and/or glass tops on your tables in order to prevent warping. Avoid placing extremely hot plates directly on the wood table tops so as to avoid staining or cracking from these high temperatures. Wipe up any excessive water immediately. Never use polish or cleaners that contain alcohol, silicone, or ammonia. The lifetime of solid wood tables may be extended by sanding and restaining in the future if proper care is given to the tables. Please call us at 877-747-7638 with questions regarding this disclaimer for more details on caring for your solid wood tables.

Estimates/Price Quotations: All price quotations will be honored for a period of 30 days, unless otherwise specified, and must be in writing.

The order acknowledgement is the final agreement between the customer and Soft Touch Wood, Inc. The order acknowledgement supersedes all prior oral and written statements. It is the responsibility of the customer to “double check” and verify that all the information on our acknowledgment is correct, especially with regards to quantities, finishes, and fabric choices. The acknowledgement is an exact copy of what you have ordered.

Freight Claims—Loss and Damaged Shipments: All shipments that have left from our facility and become damaged and/or lost in transit will have to have a claim filed by the consignee. Soft Touch Wood, LLC, will “NOT” be held liable for filing any claims with the carrier / truck or courier. All shipments must be carefully inspected and counted with any damage being noted on the delivery receipt. The customer is responsible for contacting the carrier upon discovery of any damage or shortages. Soft Touch Wood, LLC, has no responsibility regarding concealed damages or losses.
