

# SOFT TOUCH FURNITURE

Our latest ideas, innovations, and custom designs

*We have been doing some exciting things with banquettes and benches—creative trims, chic tufting patterns, modern details, and lush materials.*

This customer's vision made this Sofa Style Booth a country club masterpiece! It features a single row of Deep Bun Tufts, spring colored upholstery on the inside back, and Walnut Stain on the booth's wood. Besides the legs, it has an Enclosed Kick Base for a truly one of a kind piece.

Check out the color schemes which, combined with the patterned backs, give an almost 3D effect, inviting guests to party all night no matter the time of day.

This "down to earth" booth features Diamond Tufting on the back, giving it a warm, classic look that makes you want to sit and dine. The black color allows it to fit with any contemporary decor as well

The booth has a 9" Kick Base that is painted black, and for modern convenience, two USB/ Electric Outlets. The inside back, arms, and outside back feature a Versailles Beige velvet, while the seat is classic leather - twice as nice to look at, and twice the fun as well!

Standing tall and strong, this wooden table is as dignified as it gets. Using 4 extra thick legs and an apron instead of a trestle gives more room for your feet, making it ideal for business gatherings. The Walnut Stain adds to the robust feel, with the Distressed top completing the look.

Your wish is our command! This customer had specific size requirements, so we built this Walnut wood Credenza to spec. It features adjustable glides, black melamine shelves, magnetic push latches, and an awesome black kick base. It's Natural Finish looks fantastic, and it fit their space perfectly, which is the icing on a cake!
